

Appendix 2

This appendix was part of the submitted manuscript and has been peer reviewed. It is posted as supplied by the authors.

Appendix to: Reddel HK, Sawyer SM, Everett PW, et al. Asthma control in Australia: results of a cross-sectional web-based survey in a large nationally representative population. *Med J Aust* 2015; 202: 492-497. doi: 10.5694/mja14.01564.

Appendix 2. Flow chart of study participants

224,898 in web-based panel

80,518 randomly invited to take a survey (the topic of the potential survey was not stated)

27,606 responded (panel participation rate 34.29%) and then saw initial screening questions

6,339/27,606 (22.96%) had ever experienced asthma

3,475/27,606 (12.59%) had current asthma

3018 entered survey (asthma participation rate 3,018/3,033, 99.51%)

2,686/3,018 completed survey (response rate 89.00%)

442 excluded as their demographic stratum had been fully recruited (3,033 included)

15 failed to enter survey
